

Emergency Decision Unit Pathway

Post Trauma Pathway

Date

DD/MM/YY

Has lived in UK >1 year?

☐

Yes

☐

No

Patient details

Full
name

DoB

Unit
number

(use sticker if available)

Inclusion criteria

Trauma through RTC/fall/cycling/gunshot/stabbing/burn/assault or as a pedestrian and need a period of observation or analgesia before discharge

Exclusion criteria

- Injuries requiring admission under specialist team
 - consider if medicine/surgery/urology/thoracics/cardio-thoracics would be more appropriate
- Patients that have significantly abnormal physiology
- Patients that require continuous monitoring

Notes to doctor completing this form (ED senior to ensure compliance)

- Additional pathways may be required such as Head Injury/Falls/DSH
- A fully completed Trauma Sheet must accompany this form
 - Ensure Injury Summary table is complete
 - Ensure all investigation results are documented
- Ensure all CT reports accompany this form
- In addition to the pre-printed plan below, please also document
 - What observations are required, and for how long
 - What tests are necessary or results still outstanding (if any), and when tests or results are due
 - What treatment is necessary (if any) and by whom
 - Estimated time and date of discharge
- Write a drug chart
 - Include patient's regular medication
 - Prescribe appropriate drugs for symptom control/fluids

EDU plan

Please note:

- Contact ED senior if there is any deterioration of a patient
- Refer to speciality if patient develops any symptoms requiring active intervention
- **A Tertiary Survey must be performed and documented prior to discharge, (see over)**

Planned & agreed by

Referring doctor

Doctor in Charge

Nurse in Charge
