

Emergency Decision Unit Pathway

EPIC Pathway- For use only when no consultant

Date **DD/MM/YY**

Patient details

Full name

DoB

Unit number

(use sticker if available)

Inclusion criteria	- This pathway is designed for use overnight, when there is no ED consultant in the department - Patient requires period of observation and / or treatment likely to result in discharge within 24hours - Patient must be reviewed in person by the EPIC and pathway signed off by them after this has occurred, as well as agreed by the ED NIC or EDU Senior Nurse
Exclusion criteria	- Specific EDU pathway available - Requires advanced airway management - Respiratory rate < 8 or > 20 - Heart rate < 40 or > 100 - Systolic BP < 100 - GCS < 13 - ECG abnormality considered to be new - Patient has condition usually dealt with by in-patient teams- Admit to speciality

Notes to EPIC completing this form

- **Think twice** before completing this pathway - are you sure no specific EDU pathway available, is the patient at significant risk of deterioration, are they likely to be discharged in less than 24 hours or should the patient should be admitted under a speciality?
- Please document on this page
 - what observations are required
 - what results are still pending (if any)
 - what tests are required (if any), and at what time
 - what treatments are required (if any)
 - criteria for discharge or admission under inpatient team
 - time patient is due for review, and by whom / grade of staff

EDU plan

A copy of this form needs to be kept by the EPIC and patient handed over / discussed at the morning meeting with the consultant doing the EDU ward round

Planned & agreed by

Emergency Physician in Charge

Nurse in charge
