Discharging Clinician:

Signature..... Name.....

Position..... Registration Number.....

Notes on Completing this from:

- All patients discharged into police custody **must** have a printed copy of this form.
- This form is for the attention of the custody healthcare provider to aid the safe care of patients in police custody. The principles of patient confidentiality, consent on sharing information and GMC good practice still apply. The information provided to police should be limited to that which is necessary to facilitate safe care in custody.
- Include any specific problems, risks or predictable complications in the Advice section. A copy of this discharge letter should be entered in to the patient's notes.
- Please record any relevant medications and times given in the Emergency Department / EDU to aid the ONGOING care of the patient when back in custody eg. Last dose of Diazepam / Paracetamol.
- Please hand to police officers in sealed envelope FAO Custody HCP.
- **For complex discharge issues/ concerns by custody clinician to return to police custody:** Where it is felt a telephone conversation between UHL clinician to Mitie (custody) clinician would assist the discharge process or facilitate more detailed handover then **UHL SNR clinician clinician/EPIC** should call Mitie control room on **0800 699 0050** who will in turn organise contact with the custody clinician to discuss / handover the patient directly.

Notes for Custody Team / Custody Medical Provider:

- This form is to facilitate affective communication and handover between the Emergency Department Medical Staff and Custody medical team.
- This Form is not a substitute for medical or witness statement.
